

xMAP® INTELLIFLEX Maintenance & Support Services

xMAP® Technology by Luminex Corporation is revolutionizing the life science and diagnostic industries by enabling companies and laboratories to perform bioassays far more quickly and cost-effectively than with other systems, while ensuring optimum accuracy. Luminex offers a multi-tiered maintenance and support program to ensure proper utilization, maintenance, and upkeep on xMAP Instruments. The program is designed to fit the needs of any laboratory, whether in the academic, government, or private sector. Our Maintenance and Support Program extends our services around the world with packages that fit all laboratory needs and budgets.

xMAP® INTELLIFLEX Maintenance and Service Agreements

Platinum

The Platinum Service Plans are intended for customers who continuously operate the instrument and require proactive service, with the assurance of on-site, one-business day response and an option to include assay start-up and support.

Gold

The Gold Service Plans are intended for customers who regularly operate the instrument and require proactive service, with the assurance of on-site, two-business day response and an option to include assay start-up and support.

Bronze

The Bronze Service Plan is intended for customers that may not be using the instrument regularly or have budgetary constraints.

xMAP® INTELLIFLEX DR-SE plan price	\$16,500	\$14,850	\$4,950

Prices listed above are in USD and are for a one-year term. Discounts are available for multi-year and/or multi-instrument agreements.

Maintenance and Support Packages are not available in all locations. To inquire about availability in your location, please contact Service Sales at ServiceSales@LuminexCorp.com.

Service Plan pricing assumes the customer has maintained continuous coverage. Standard Luminex policy requires instruments with a lapse in service coverage to be recertified prior to beginning a new service agreement.

The recertification fee includes travel and three hours of labor. Additional hours of labor and/or parts used during the recertification may result in additional charges.
